2018 NOV 13 PM 3: 40 1 2 UNITED STATES DISTRICT COURT U.S. DICTRICT COURT FOR THE CENTRAL DISTRICT OF CALIFORN 3 SOUTHERN DIVISION 4 5 LISA LIBERI, et al 6 **CIVIL ACTION NUMBER:** 7 8:11-cv-00485-AG Plaintiffs, 8 VS. **DECLARATION OF LISA** 9 **OSTELLA** 10 ORLY TAITZ, et al, 11 12 Defendants. Date of Hearing: Time of Hearing: 10 a.m. Location: Courtroom 10D 13 14 15 16 **Declaration of Lisa Ostella** 17 18 I, Lisa Ostella am over the age of 18 and am a party to the within action. I 19 20 have personal knowledge of the facts herein, and if called to do, I could and would 21 competently testify. I am making this Declaration under the penalty of perjury of 22 23 the Laws of the United States pursuant to 28 U.S.C. §1746. 24 25 26 27 28

- 1. I have worked with computers and the Internet for in and around 30 years. I have built custom portals and search engines and am very familiar with how information is propagated and stored throughout the Internet.
- 2. Richard Guerry is the founder of the non-profit organization the Institute for Responsible Online and Cell-Phone Communication (IROC2).
- 3. Guerry is also an author. In his book, "Public and Permanent: The Golden Rule of the 21st Century", ISBN-10: 1452501327 pub. January 13, 2011, author Richard Guerry argues that you should think of everything you do electronically as both public and permanent:

"When you post information to the World Wide Web about yourself or someone else, you are communicating as part of an intimate global community. You are essentially posting information on a community bulletin board in the town square.... Once your content has been seen and shared by even just one other person... in the global village, you can never definitively remove the information from the knowledge base of the community because anyone who has seen and saved it, can at any time, put it right back up on the bulletin board, or anywhere else in the community, whenever they want and without your permission or knowledge."

4. All mine and Plaintiff Lisa Liberi's data, public, private and tracking has been made public through the global community of the Internet, the underground

of the Internet (Tor Network), online data lockers globally (Scribd, Docshare, eDoc, Yumpu, PlainSite) as well as filed as public record in court cases and Internet Libraries.

- 5. One of these Internet Libraries is called Archive.org, aka Internet Archive, aka The Wayback Machine. This library is partnered with credible institutes such as: International Internet Preservation Consortium, Library of Congress and the Smithsonian.
- 6. Our data, coupled with all the lies and smears by the Defendants, has been introduced to public, historic record by certified private investigators, propagated by an officer of the court (Orly Taitz) and published by partnering institutes such as the Library of Congress and the Smithsonian.
- 7. All of the online data lockers have servers located throughout the world; as well as, global user reach with affiliate financial incentives to encourage users to embed the content into their own websites.
- 8. Taitz repointed a domain, TaitzReport.com, she had from her Youtube Channel to a server she obtained, manages and uploaded files to in Germany, ns1057.ui-dns.de, see **EXHIBIT "A"**.
- 9. While Taitz's site was established on this server in Germany; Taitz opened an offshore account with Yumpu, an online file locker, where she proceeded to upload copies of every one of her website pages, letters, publications,
